The screenshot shows the ESCMID website page for leadership committees. The URL in the browser is escmid.org/about-us/the-society/leadership-committees/. The page features the ESCMID logo, a navigation menu with items like 'About us', 'Science & Research', 'Education', 'Congress & Events', and 'Guidelines & Journals', and a main text block describing the Executive Committee (EC) and its subcommittees. Below this is a section titled 'The people at ESCMID' with a paragraph about the EC members. At the bottom, there is a call to action for an Ethics Advisory Committee member and a row of buttons for various committees, with 'Executive Committee & Ad hoc members' highlighted.

escmid.org/about-us/the-society/leadership-committees/

About us Science & Research Education Congress & Events Guidelines & Journals

ESCMID is led by the Executive Committee (EC), a diverse group of Clinical Microbiology (CM) and Infectious Disease (ID) specialists. The EC is supported by subcommittees, made up of ESCMID members, who play an important role in fostering excellence within the Society. ESCMID is organised in accordance with the Articles of Association and Bylaws that dictate the established [Policies & Laws](#).

The people at ESCMID

Dedicated ESCMID Executive Committee (EC) and Ad hoc members are the driving force behind everything we do. Together, they embody the leadership of ESCMID, upholding our mission and vision with a collective commitment to excellence. Diverse in their backgrounds and geographic origins, they have all made significant contributions to ESCMID, with a minimum active involvement of three years. The EC consists of eight voting members, each bringing a distinct blend of skills, expertise, and passion, enriching our collective efforts and guiding the Society forward. Get to know the individuals behind ESCMID!

ESCMID Education Subcommittee Board

- Education Officer: Emmanuelle Cambau
- Education Director: Mary Horgan
- Chair of the ESCMID Academy Working Group: Rana Raoufomar-Richardson
- Chair of the ESCMID Courses Working Group: Jeroen Schouten
- Education Manager: Piotr Kardas
- Associate Education Manager: Mark Vogel
- Education Coordinator: Nicolas Burt
- Education Coordinator: Majella Ding
- Education Coordinator: Gabriela Abarrax
- Education Intern: Fernanda Barros

Emmanuelle Cambau

Current occupation: Head of the Mycobacteriology laboratory
University Paris Cité, Bichat Hospital, Paris, France

Field of expertise: diagnosis of bacterial infections, Tuberculosis, leprosy and nontuberculous mycobacteria

Experience in education: Professor in Bacteriology since 2004, and teaching since 1991

How would you like to support ESCMID Education Subcommittee: helping to lead the sustainable development and expansion towards the need of our members and those who do not know CM/ID topics.

Mary Horgan MD

Current Occupation: Infectious Diseases Physician
Dublin, Ireland

Field of expertise: Viral Diseases, Medical Education

Experience in education: Dean of Medical School (2013-2017)
President of RCP (2017 Current) - Ireland's postgraduate medical training and professional affairs College

How would you like to support ESCMID Education Subcommittee: Assist in expanding the education portfolio of ESCMID by leveraging on the great asset of expertise amongst our members globally with the support of ESCMID EC and Secretariat.

Piotr Kardas

Current occupation: Education Manager at ESCMID
Basel, Switzerland

Field of expertise: biofilms, virology, project management

Experience in education: supervising and training MSc students in the lab, creating SOPs and educational content for students

How would you like to support ESCMID Education Subcommittee: Management of activities of both ES Working Groups, preparation of minutes from meetings, communication with Education Director and Education Officer

Mark Vogel

Current occupation: Associate Education Manager at ESCMID
Basel, Switzerland

Field of expertise: Generalist - background in education, project & stakeholder management, internal communication

Experience in education: Grad. Dip. in Education (Teaching), classroom experience in Australia and Spain; English Teacher for adults preparing to enter university; managing internal communication

How would you like to support ESCMID Education Subcommittee: Recently joined ESCMID to support the development of ESCMID's academy by:

- working with ESCMID leadership to shape a high-quality, sustainable and relevant education strategy and
- collaborating with experts, content creators, and technical providers to bring educational activities online.

Majella Ding

Current occupation: Science Programme & Education Coordinator
Basel, Switzerland

Field of expertise: Veterinary Science

Experience in education: Organisation of Covid training activities and the ESCMID AMS Certificate programme

How would you like to support ESCMID Education Subcommittee: Continued administrative support for the ESCMID AMS Certificate and EAcad.

ESCMID EDUCATIONAL SUBCOMMITTEE

eAcademy Working Group

Riina Richardson

Current occupation: Senior Clinical Lecturer in Infectious Diseases and Medical Education and Consultant in Medical Microbiology
Head of Services and Clinical Head of Services for the NHS Mycobacteriology Reference Centre (MRC) in the UK

Field of expertise: Medical Microbiology and Infectious Diseases, Medical Education

Experience in education: Contributed to UK and PG medical and multidisciplinary education since 1996. Production of a spectrum learning materials using conventional and novel methods (educational films, podcasts, eBooks, MPOC, e-learning, online patient scenarios, assessments), specially responsive for the RCPATH Medical Microbiology and Virology Specialty Advisory Committee, involved with the training curriculum development and assessments.

How would you like to support ESCMID Education Subcommittee: Share my experience as an educationalist and contribute to the development of effective, engaging and ongoing learning materials.

Onur Karatuna

Current occupation: Microbiologist, E-KAST Development Laboratory
Umeå, Sweden

Field of expertise: Clinical Microbiology (IST, AMR, AMR Surveillance, EQA, Laboratory Capacity Building)

Experience in education: Faculty member at Atilim University, School of Medicine, Department of Medical Microbiology, Istanbul, Turkey (2013-2017)

Participated in 100 educational activities (mostly courses/workshops focusing on topics listed under Field of Expertise)

How would you like to support ESCMID Education Subcommittee: By identifying and evaluating of the most appropriate methods to develop and/or improve knowledge and skills of COVID professionals and participate in production of the educational materials to be used for this purpose.

Sarah Dellière

Current occupation: Associate Professor Clinical Microbiology
Paris, France

Field of expertise: Mycology

Experience in education: Teaches microbiology at Université Paris Cité, Serious games on ID/CM (design and events organization), hold a teaching Instagram account for mycology and parasitology

How would you like to support ESCMID Education Subcommittee: Contribute to providing ESCMID members cutting edge learning material through new teaching tools (virtual, social media, games)

Özlem Kurt Azap

Current occupation: Infectious Diseases and Clinical Microbiology specialist
Ankara, Turkey

Field of expertise: Infections in immunocompromised patients, antimicrobial stewardship, bloodstream infections

Experience in education: Training medical faculty students and post graduate trainees about infectious diseases and clinical microbiology procedures

How would you like to support ESCMID Education Subcommittee: E-Academy member

Seif Al-Abri

Current occupation: Consultant in Infectious Diseases, Royal Hospital Muscat, Oman

Field of expertise: Infectious Diseases, Public Health, Infection Control, Leadership

Experience in education: Background in medical education, from undergraduate teaching to specialized training in internal medicine and infectious diseases. Also, contribution to educational workshops, conferences, and online module development.

How would you like to support ESCMID Education Subcommittee: Organising and facilitating educational workshops, whether they're in person or online. Also available and enthusiastic about aiding the workgroups of the Executive Committee.

Balint Gergely Szabo, M.D. Ph.D.

Current occupation: consultant ID specialist, associate lecturer
Debrecen, Hungary

Field of expertise: severe infections of immunocompromised and critically ill adult hosts

Experience in education: Holding ID lectures for medical and dental students and educational sessions for ID trainees on local and national levels since 2014; organizing university research for medical students since 2016, and the research of full-time PhD students since 2023.

How would you like to support ESCMID Education Subcommittee: Proofreading educational materials for ESCMID, mentoring junior SG members, taking part in online and onsite educational activities, taking part in the communication with ESCMID staff

Charalambos Dokos

Current occupation: Principal Investigator at University Hospital of Cologne
Cologne, Germany

Field of expertise: Antibiotics Therapeutics and Neurology, Antimicrobial, Clinical Pharmacology, Pediatric Pharmacology

Experience in education: AMR Workshops, supervising for PhD and teaching medical students, residents in the UHC

How would you like to support ESCMID Education Subcommittee: collaboration with the Education Director and Officer, preparing outlines and established content of seminars and other meetings of ESCMID, networking and communication with external partners.

Lina Cavoco

Current occupation: Special consultant - Veterinarian, Staters Serum Institut
Cresciano, Denmark

Field of expertise: Veterinary Microbiology and antimicrobial resistance, capacity building

Experience in education: University teaching as course responsible, Teaching technical courses in classroom, on-site and online. E-learning, MOOC (development and teaching)/ content creation for COURSE Hero based courses, involved in development of online course with ESCMID/EAH.

How would you like to support ESCMID Education Subcommittee: Advice on Educational programs, course and content development, scientific content review within my expertise and/or review of pedagogical aspects.

Maeve Doyle

Current occupation: Consultant Microbiologist
Waterford, Ireland

Field of expertise: Infection Prevention and Control, ventilation, water and environmental microbiology

Experience in education: Chair of Education, Royal College of Physicians of Ireland, Member of European Exam in Medical Microbiology working group

How would you like to support ESCMID Education Subcommittee:

- evaluate new proposals for e-learning educational activities
- evaluate the existing content of the ESCMID Academy and address the need to update when necessary.

ESCMID EDUCATIONAL SUBCOMMITTEE

Courses Working Group

Jeroen Schouten

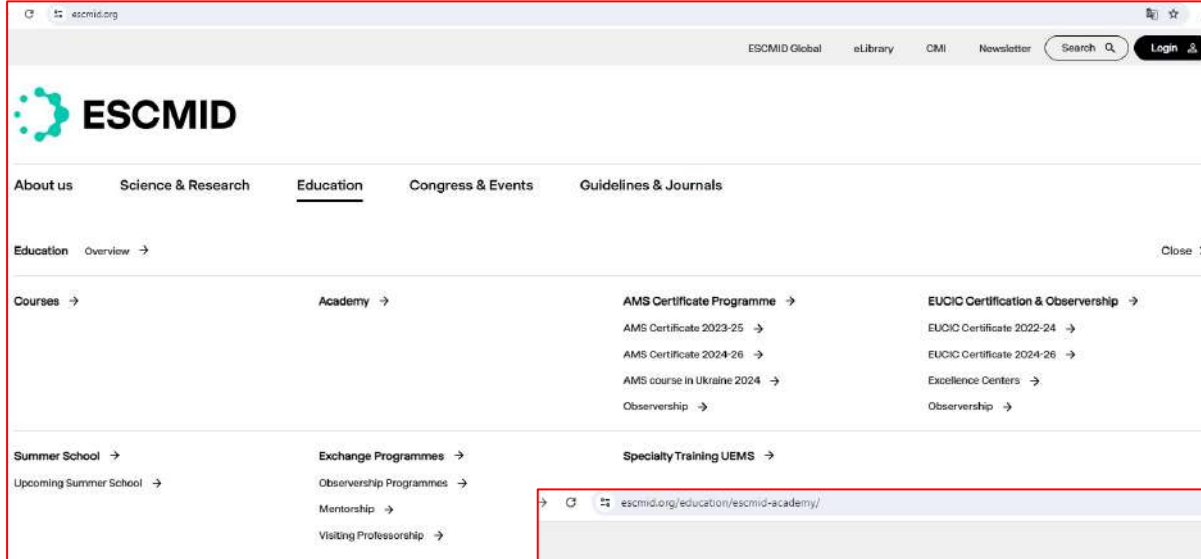

Current occupation: Intensivist Radboud University Medical Center, Intensive Care Unit, director Antimicrobial Stewardship Program Nijmegen, the Netherlands

Field of expertise: ICU infections, Implementation of AMS programs, AMS in LMIC

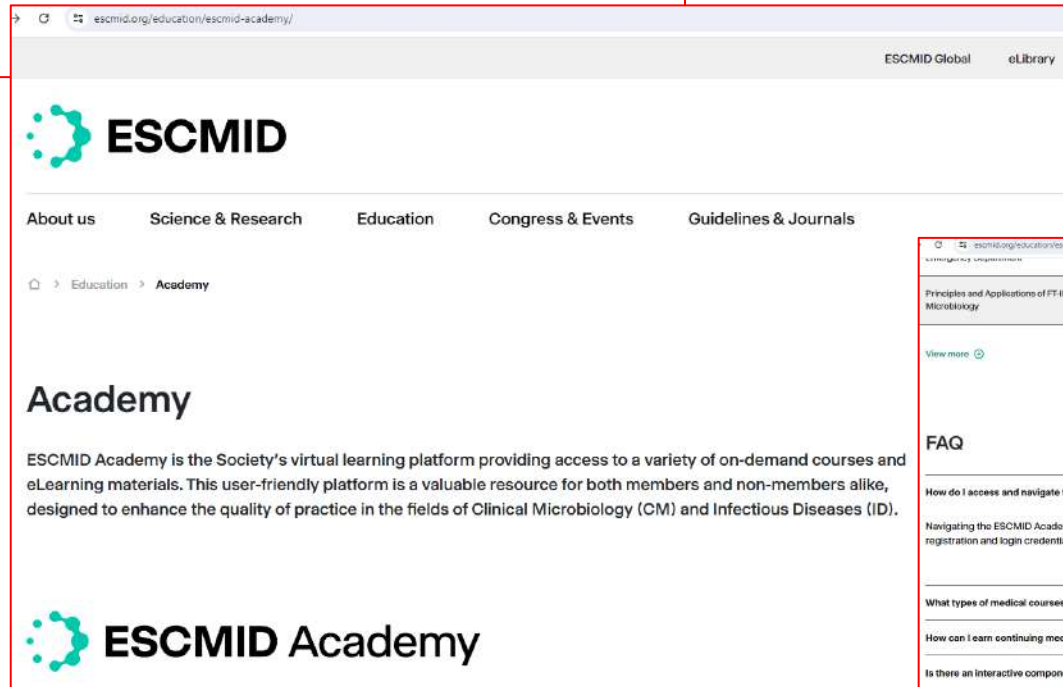

Experience in education: director ESCMID AMS certificate program; chair ESGAP, EAH supported AMS implementation courses

How would you like to support ESCMID Education Subcommittee: (re)structure and modernize ESCMID educational program

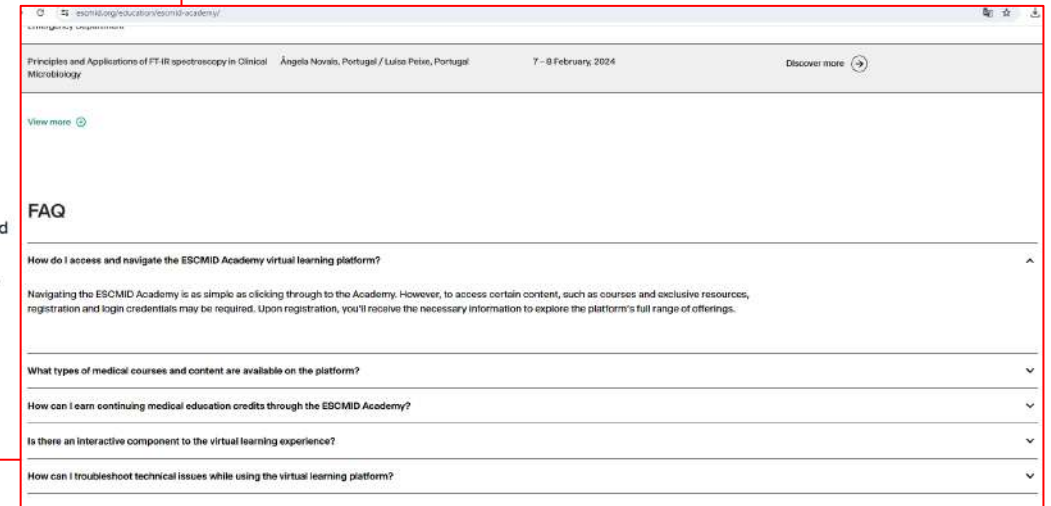

ESCMID ACADEMY

The screenshot shows the ESCMID website home page. At the top, there is a navigation bar with links for ESCMID Global, eLibrary, CMI, Newsletter, a search bar, and a Login button. The ESCMID logo is prominently displayed on the left. Below the logo, there is a main navigation menu with categories: About us, Science & Research, Education (which is underlined), Congress & Events, and Guidelines & Journals. A secondary navigation bar shows 'Education Overview' with a right-pointing arrow and a 'Close' button. The main content area is divided into several sections, each with a right-pointing arrow: Courses, Academy, AMS Certificate Programme (with sub-links for 2023-25, 2024-26, and a course in Ukraine 2024), Observership, EUCIC Certification & Observership (with sub-links for 2022-24, 2024-26, Excellence Centers, and Observership), Summer School (with a link for Upcoming Summer School), Exchange Programmes, Observership Programmes, Mentorship, and Visiting Professorship.

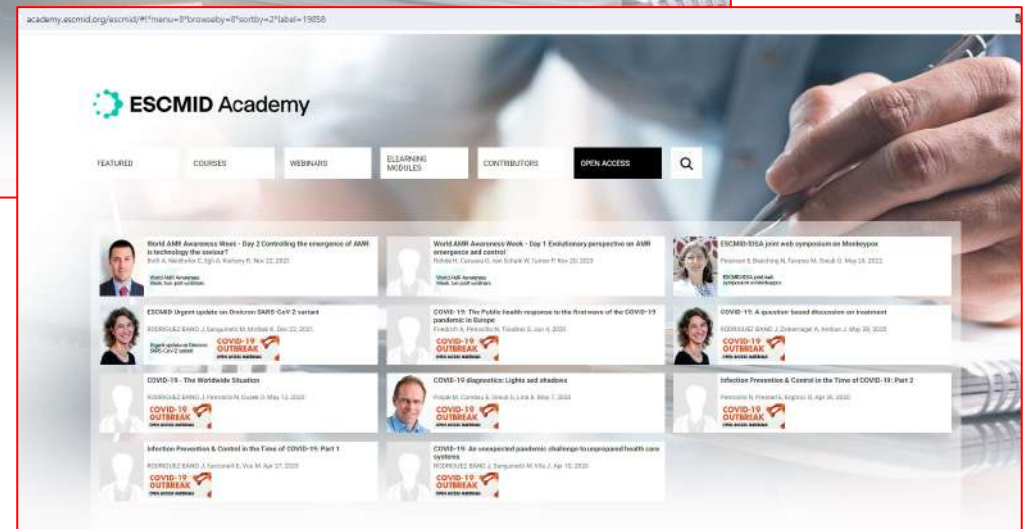

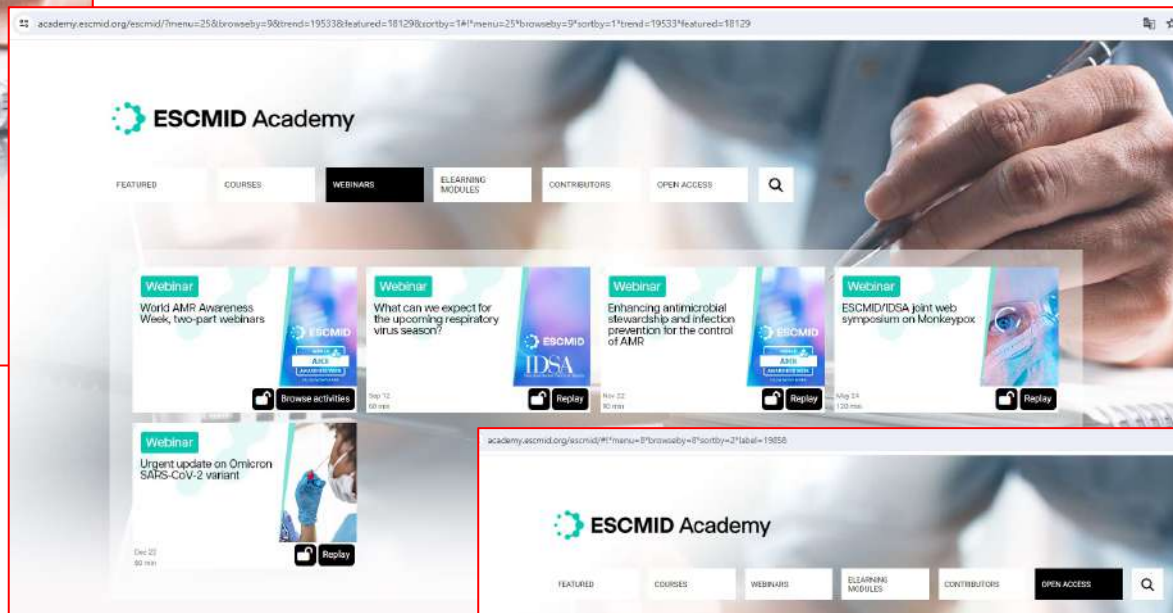

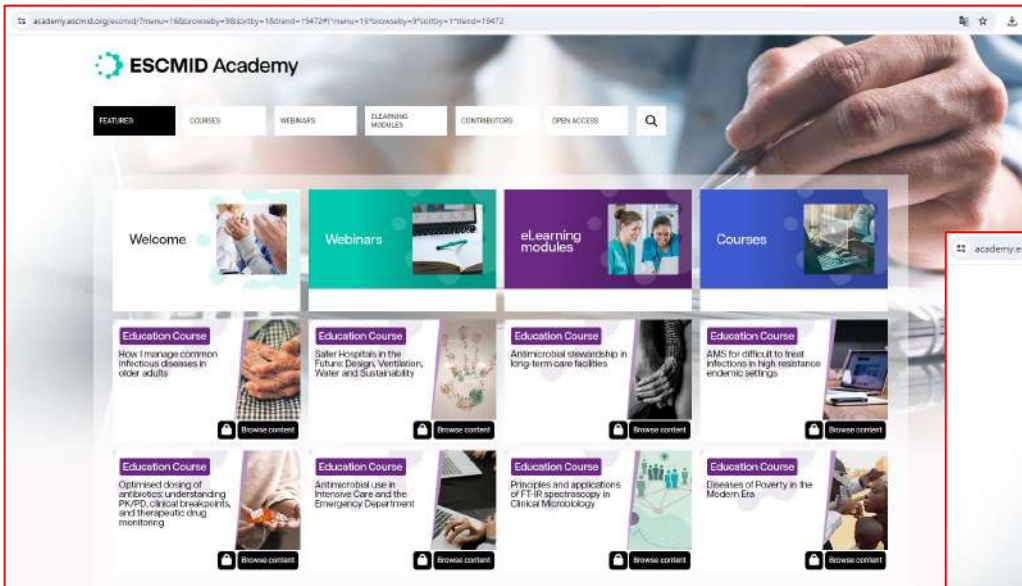

The screenshot shows the ESCMID Academy page. The URL in the browser is 'escmid.org/education/escmid-academy/'. The page features the ESCMID logo and a navigation menu with 'Education' highlighted. Below the navigation, there is a breadcrumb trail: 'Education > Academy'. The main heading is 'Academy'. The text below the heading reads: 'ESCMID Academy is the Society's virtual learning platform providing access to a variety of on-demand courses and eLearning materials. This user-friendly platform is a valuable resource for both members and non-members alike, designed to enhance the quality of practice in the fields of Clinical Microbiology (CM) and Infectious Diseases (ID)'. At the bottom of the page, there is a large logo for 'ESCMID Academy'.

The screenshot shows the FAQ section of the ESCMID Academy page. The URL is 'escmid.org/education/escmid-academy/'. The page title is 'Principles and Applications of FT-IR spectroscopy in Clinical Microbiology' by 'Ángela Novais, Portugal / Luísa Peixe, Portugal', dated '7-9 February, 2024'. There is a 'Discover more' button. Below the title, there is a 'View more' link. The section is titled 'FAQ' and contains five questions, each with a right-pointing arrow indicating it can be expanded:

- How do I access and navigate the ESCMID Academy virtual learning platform?
- What types of medical courses and content are available on the platform?
- How can I earn continuing medical education credits through the ESCMID Academy?
- Is there an interactive component to the virtual learning experience?
- How can I troubleshoot technical issues while using the virtual learning platform?

Education

The European Society of Clinical Microbiology and Infectious Diseases (ESCMID) encourages and supports life-long learning for professionals in the fields of CM and ID through the patronage and hosting of global education programmes. Education is a major pillar of ESCMID's strategy, which will continue to evolve to meet the needs of its members and help them make a positive contribution to the scientific and healthcare community.

Courses

ESCMID offers exciting postgraduate course events that helps to keep members, affiliates, and experts in the fields of CM and ID at the forefront of pioneering research and forward thinking.

[Discover more →](#)

Academy

The Academy is an innovative educational platform with on-demand materials for both ESCMID members and non-members across the globe.

[Discover more →](#)

Exchange Programmes

With our vast global network of CM and ID professionals, we facilitate opportunities for collaboration and knowledge sharing among our members and affiliates. ESCMID offers a range of exchange programmes that support networking, knowledge exchange and career advancement.

[Discover more →](#)

AMS Certificate Programme

The Antimicrobial Stewardship (AMS) certificate is a two-year learning programme with courses for early-career healthcare professionals, or those looking to take a career leap in the field of AMS. This opportunity reinforces graduates with invaluable skills and know-how.

[Discover more →](#)

EUCIC Certification & Observership

The European Committee on Infection Control (EUCIC) certifies provides training programmes in the fields of Infection Control (IC) and Healthcare-Associated Infections (HAIs), creating a resource network and opportunities for knowledge exchange internationally.

[Discover more →](#)

Summer School

ESCMID hosts an inspiring one-week Summer School programme for members seeking postgraduate studies and to continue their medical education. Participants in this programme will learn hands-on from skilled Society experts and professionals in the fields of CM and ID.

Register mentorship centre

Register as a Mentorship Centre Mentors are highly experienced ESCMID members who offer guidance and encouragement to future professionals. Being a mentor goes beyond participating in a programme, it is a vital

Objectives

Together with your mentor, you will define the goals and outcomes of your mentorship exchange and develop a plan that outlines your criteria for success. Mentorships aim at providing you with valuable experience and concrete outcomes such as career planning, scientific development, presentation skills and academic publishing, data analysis, application for grants/fellowships, as well as opportunities for networking and collaboration.

Deadlines

Applications for mentorships can be submitted throughout the year. Requests have to be submitted at least 3 months prior to the intended mentorship start date.

Application procedure

Application process

Eligibility criteria

Please be aware you can only apply for one mentorship. Mentorship exchanges are handled via email, phone, video conference tools or face-to-face sessions at the ESCMID Mentorship Centre (EMC). To qualify for the ESCMID mentorship programme, please make sure you meet our eligibility criteria:

- ESCMID Full members, Young Scientist Members (YSM), or members from low- or middle-income countries (LMIC)
- Inside-of-country and/or outside-of-country mentorship
- No age restrictions

Funding

ESCMID is pleased to provide mentorship funding of up to 1,000 EUR annually, available for a period of two years. Submit your final report and original receipts to qualify for a reimbursement reaching 2,000 EUR per mentorship. ESCMID will reimburse the following expenses within the 1,000 EUR yearly budget:

- Remote interactions between mentor and mentee: telephone bills, telephone conference invoice, and internet bills
- One face-to-face meeting per year: travel and accommodation during the visit to an ESCMID Mentorship Centre (EMC)
- Attendance of ESCMID events and congresses (registration fees, transportation, and accommodation), as well as article publication fees for CMI and CMI Communications.

If additional expenses are expected to result from the mentorship programme, they need to be specified in the application and will be reviewed accordingly. Please note that after your application is approved we will only cover the expenses mentioned above, provided you submit the original receipts.

Mentorship

Report

Publications resulting from mentorships

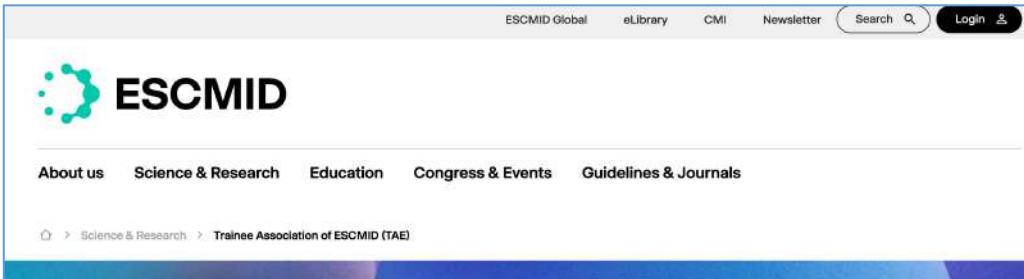

We strongly encourage you to publish outcomes from your mentorships in peer-reviewed journals. Publications from research projects that have directly benefited from mentorships are specially acknowledged with the following: "[Name of mentee] has received input for the study/project through ESCMID's mentorship programme by [name of mentor]." We invite you to send the published scientific articles resulting from your mentee-funded projects to the ESCMID office. Even if the project has officially been closed, or the mentorship already complete, your accomplishment will still be shared through ESCMID channels.

Mentorship final report

Mentee ID (on mentorship email correspondence)	
Period of mentorship	
Mentee name	
Primary mentor	
Additional mentor, if applicable	
Dates of contacts (e.g. meetings or discussions) since start of mentoring	
Date of next planned contact (if applicable)	
Main topics covered during mentoring	
Progress on project or career development plan since start of mentoring	
Outcome/action plans (if more than 100 words, attach after this page)	
Next scheduled meeting (dd/mm/yy, if applicable)	

Please attach a letter signed by the mentor in which the outcome from the mentorship visit is stated.

TAE

Mission

We advocate for young scientists: TAE represents the interests of ESCMID Young Scientist Members (YSM) globally through supporting and promoting continued learning and knowledge-sharing among the association and its members. **We foster networking and collaboration:** Members within TAE help build a vast network of young professionals for international collaboration by establishing a wide-ranging, interconnected platform for CM and ID trainees to exchange, leveraging both regional and global networks. **We enhance training:** TAE aims to identify and address training challenges that CM and ID trainees may face.

Efforts are made by the association to harmonise education quality and content in Europe and beyond through consultations with the European Union of Medical Specialists (UEMS) and national societies. **We provide professional and educational support:** Members of the TAE actively promote observerships, mentorships, and diverse opportunities to improve and support scientific education. Endorsing educational initiatives and programs is another way this goal is achieved. ESCMID YSMs are acknowledged for their contributions with awards.

TAE Day

TAE Day takes place annually during ESCMID Global and hosts a range of enriching activities that drive networking and knowledge sharing, including the Round Table Session exchange between prominent experts in the fields of CM and ID to inspire young professionals.

[Go to ESCMID Global](#)

Virtual Roundtable

This annual event offers young professionals the opportunity to meet fellow CM and ID trainees with similar career journeys and aspirations. A perfect moment to strengthen professional bonds with peers and be inspired by senior experts who were once in their place! The call for the next event will be posted here soon.

@TAEscmid

Dear Colleagues and Friends,

As the flowers bloom and the world rejuvenates with the spirit of spring, we at the Trainee Association of ESCMID (TAE) Steering Committee are excited to share a season of innovation, opportunity, and community engagement. In the newest edition of our Newsletter, we bring you the latest updates and developments within ESCMID.

This spring marks the transition between the current and next teams of the Steering Committee, while preparing for our annual meeting. From the renaming of our congress to ESCMID Global, to the educational opportunities at the upcoming TAE Day and ESCMID Summer School in Utrecht, our commitment remains strong in creating a global community united in advancing ID and CM healthcare.

As we anticipate our meeting in Spain, let us embrace the opportunities to learn, network, and grow together. Your engagement and contributions are fundamental in driving our mission forward, shaping a healthier and more informed world. We hope this newsletter serves as a source of inspiration and information, and we look forward to seeing many of you in person or online at our upcoming events.

We hope to see you during TAE Day and during the ESCMID Summer School in Utrecht, The Netherlands!

Outgoing TAE Steering Committee Members

Dear Trainees and Junior Scientists,
As I approach the end of my term as President of the Trainee Association of ESCMID (TAE), I reflect on the journey we have shared. These past three years have been a period of growth and achievement, not just for our association but for each of you as members of our network. With this, I would like to encourage all of you to become involved with TAE and our activities, including in taking on leadership roles.

Why Engage More Deeply with TAE? Being actively involved in TAE offers more than just professional development; it is a pathway to personal growth and global impact. Our initiatives aim to empower you, to work towards advancements in clinical microbiology and infectious diseases. The opportunities to lead projects, contribute to educational efforts, and collaborate internationally are not just steps in career advancement—they are strides towards becoming leaders in healthcare.

Lead and Innovate: As you consider becoming more involved, remember that TAE is a platform for innovation. Whether it's through proposing new projects, leading discussions, or becoming a national representative, your contributions will drive the change we aspire to see in the world. I encourage you to seize the leadership opportunities within TAE. Apply your vision and energy to lead us forward.

Serving as President has been one of the most fulfilling roles of my career. I am grateful for the collaboration, enthusiasm, and dedication that you all have shown. As I move forward to my next adventure, I am confident that TAE will continue to improve, inspired by your passion and ideas. I look forward to seeing how TAE will continue to develop and expand its impact within ESCMID.

Petar Velikov
Bulgaria

Nicholas Power
Ireland

A chairde,

Well that went fast. Being part of the TAE has been a great honour and it has been my privilege to work with you for the last three years. ESCMID at its core is a space to meet with peers, collaborate with colleagues from around the world, and learn with the world's leading voices in CM and ID. I hope that I've contributed to making things a little better for trainees, and I will do my best to exemplify ESCMID's core values as I move to the next stage of my career.

I look forward to meeting more of you at ESCMID Global (or ECCMID for us old fogies) and continuing to collaborate with TAE and the wider ESCMID family. If you see me at ECCMID please say hi! A special thanks to everyone from my time in TAE. I've learned a lot from Emmanuelle, Anu, Valentijn, Sarah, Anja, Ivana, Katharina, Petar, Giorgia, Yousra, Suzanne, Christian, Claudio and Casandra, and I'm happy to welcome Galadriel and Filippo to the TAE family.

Incoming TAE Steering Committee Members

Galadriel Pellejero-Sagastizábal
Spain

I am honored to join the TAE Steering Committee of ESCMID as an Infectious Diseases physician-scientist trainee from Spain. At present, I am enrolled in the 'Río Hortega' research training program, accredited by the National Health Research Institute Carlos III, specializing in Infectious Diseases (ID) at Lozano Blesa Clinical Hospital. I have a background in antimicrobial stewardship (AMS) and the management of healthcare-associated infections.

With a strong commitment to medical education, I serve as a teaching assistant at the University of Zaragoza, host "Sensible y Resistente" Podcast for the Spanish Society of ID/CM, and fulfill a role as a medical educator in the AMS program. As the specialty of ID approaches formal recognition in Spain, my primary goal is to enhance training programs in ID/CM. I aim to support others in similar situations, fostering an environment of growth and learning.

Joining this esteemed committee, I am eager to contribute to our shared objectives and make a meaningful impact on the field.

Filippo Medioli

Italy

Dear fellow colleagues,

I'm Filippo Medioli and I'm an Infectious Diseases resident in Modena, Italy. I am deeply honoured to have been elected as a TAE Steering Committee member and I hope to embody the voice of as many residents worldwide as possible.

I will use my communication and organisation skills to better build bridges among ESCMID and those who would benefit from any kind of help, during their formation path. In Barcelona come and say hi if you feel like!
